

It has always been a challenge for those who seek to follow God to live in a world that is not seeking after the same thing. How do we maintain our integrity?
How do we stand for our faith in the face of opposition?
How do we live for God faithfully?

The good news is that these questions are not new to our age but have been there since the beginning. The Old Testament book of Daniel gives us timely lessons on how to face these challenges as we see how Daniel and his three friends sought after God while residents in the pagan culture of Babylon. More than just some amazing stories, we will learn how to live for Jesus in a complicated and increasingly hostile culture.
